

## Barbarians Notice Board

This notice board provides junior clubs with the opportunity to register their interest in forming a barbarian's team with another club in the same situation.

This situation is where each club has a number of players registered to a particular age group; however it is not quite enough to field a team *or* they have an extraordinary amount of players and wish to form a barbarian's team with the "extra" players.

Please note that many clubs are still receiving registrations as training sessions commence; in light of this some of these teams below may not need to form a barbarians team, however have chosen to register their interest until such time that they will know for sure.

RugbyWA will update this page as often as possible; however it is up to individual clubs to notify us if they no longer require any information on this board *or* would like information to be put up.
